2nd International Conference on Concrete Repair–Concrete Solutions will be held in St-Malo, France. The main themes of the conference are Risk Management, Preventing and Repairing Fire Damage, and Electrochemical Repair. Information: GR Technologie, 14 Country Gate, Barnet, Hertfordshire, EN5 1EH, UK. Tel./fax: +44 (0) 20 8449 0641, e-mail: info@concretesolutions.info.

June 27–29, 2006

The Engineering Conferences International (ECI) **Advances in Cement and Concrete**, will be held in Davos, Switzerland. The session themes include:

July 2–7, 2006

- Innovative Cementitious Systems
- New Chemistries, New Performance
- Improved Mechanical Performance
- Role of Supplementary Materials in Durability
- Life Cycle Costing
- Role of Cementitious Systems in Waste Management
